### MAIN FEATURES

- \* In South Australia during 1976-77 approximately 75 100 claims (a decrease of 2 900 from 1975-76) were lodged under the SA Workmen's Compensation Act, and payments totalling \$49.2 million (an increase of \$2.5 million) were made for wages lost, hospital and medical expenses and lump sum settlements.
- \* 14 800 non-fatal accident claims each involving lost time of one week or more were reported as finalised during 1976-77: total time lost as a result of those accidents was approximately 83 700 weeks (or approximately 1 750 man-years of working time). Involved in these accidents were 12 676 males (averaging 5.5 weeks time lost) and 2 124 females (averaging 6.8 weeks time lost).
- \* Of those 14 800 'week or more time lost' accidents - 4 550 (30.7 per cent) arose from the handling of materials and other objects; 3 418 (23.1 per cent) from persons slipping, stumbling or falling; 2 066 (14.0 per cent) from objects moving or falling; 1 322 (8.9 per cent) from use of hand tools; 852 (5.8 per cent) from the operation of machinery.
- \* 51 per cent of injuries were strains and sprains compared with lacerations, 17.1 per cent; bruising contusion and other superficial injuries, 15.1 per cent; and bone fractures, 8.4 per cent.

### EXPLANATORY NOTES

The statistics contained in this bulletin have been compiled from reports of workmen's compensation claims closed during the year ended 30 June 1977 and of unclosed claims of three years duration at 30 June 1977. Reports are submitted by insurance companies, self-insurers, and State Government departments, through the South Australian Department of Labour and Industry.

### SCOPE AND COVERAGE

Although the term 'industrial accident' is used, the statistics represent workmen's compensation claims finalised during the year ended 30 June 1977. The accidents, to which the claims refer, may have occurred in the year the claim was finalised or during any other year within the coverage of the current collection, i.e. within the previous three financial years. For accidents which occurred during the period 1 July 1973 to 30 June 1974 and for which the claims had still not been finalised by 30 June 1977, estimates of amounts yet to be paid are included in the statistics : however, there is evidence that the reporting of such unclosed claims is incomplete.

Each original claim has been regarded as a separate accident and although reports have been received of re-opened claims, no details of these have been included in the tabulations.

Only persons within the coverage of the South Australian Workmen's Compensation Act, 1971-1974 are included. Notable exclusions are self-employed persons (although following a change in legislation persons supplying labour only in contracts have been included from 1 January 1974) and all Commonwealth Government officers and employees.

The exclusion of self-employed persons is likely to have considerable effect in industries where self-employment is significant (e.g. retail trade, rural industries). Because of the exclusion of Commonwealth Government employees, defence services and Government communications industry groups are not covered, while coverage is reduced in other industries (e.g. building and construction). Because of the movement of employees across State boundaries some reports received may refer to accidents occurring in States other than South Australia. The number of such reports is thought to be negligible.

Note that coverage of claims for non-fatal events for both 1976-77 and the previous year is considered to be acceptably accurate but the problems of inadequate reporting is still evident in respect of fatal events. Therefore, all details in respect of fatal events have been excluded from 1976-77 figures.

#### DEFINITIONS

For the purpose of this collection the following definitions have been adopted:

**INDUSTRIAL ACCIDENT** A compensated work injury causing death or absence of the injured person from work for one week or more, but excluding disease cases and accidents during journeys or recess periods if the victim is not engaged in normal occupational duties. 'One week' has been interpreted as one week of seven calendar days or five working days.

**FATAL ACCIDENT** So classified regardless of the time intervening between injury and death, provided that death occurs before the claim is closed or regarded statistically as closed.

**ACCIDENT FACTOR** Interpreted in general as that underlying agency, other than human failing, which appears to contribute most materially to an accident and which would be most likely to receive attention in preventing recurrence of a similar accident.

**TIME LOST** The actual time lost from work except that persons reported to be totally and permanently incapacitated as a result of a compensatable work injury are statistically allotted a duration of incapacity of 156 weeks.

**AMOUNT PAID** Includes compensation for wages lost, hospital and medical expenses, and lump sum settlements.

**INDUSTRY** Classified in accordance with the 1969 Preliminary Edition of the Australian Standard Industrial Classification (ASIC). Before the 1975-76 collection, industry coding was based on the 1966 Census Classification List of Industries and hence industry classifications in this bulletin are not strictly comparable with issues before 1975-76.

**OCCUPATION** Classified in accordance with the 1971 Census Classification of Occupations.

**INDUSTRIAL DISEASE** Special note should be taken of the distinction between 'Injury' and 'Disease' cases in these statistics.

The International Labour Office distinguishes an occupational disease from a work injury in that it exhibits one or more of the following characteristics:

- (i) the slow and protracted nature of its cause;
- (ii) its ascribability to repeated or continuous action of a mechanical, physical, or chemical cause; it is not the effect of a single event but of a cause acting imperceptibly and constantly;
- (iii) indeterminateness of the time of its beginning due to its slow and insidious development;
- (iv) the possible importance of individual predisposition as a factor in the development of the pathological conditions.

The definition of a disease case used in these statistics conforms with the above distinction.

#### CLAIMS LODGED AND COMPENSATION PAID

The number of all effective claims lodged with insurance companies, self-insurers and State Government departments (including claims involving work absences of less than one week, journey and recess cases) and the amount of compensation paid on all claims current during each year for the years 1970-71 to 1976-77 are shown below.

Year	Effective Claims Lodged	Compensation Paid
		(On All Claims Current During Year)
	Number	Dollars
1970-71 (a)	56 600	7 700 000
1971-72 (a)	61 000	10 600 000
1972-73 (a)	75 000	15 400 000
1973-74 (a)	87 000	21 300 000
1974-75 (a)	84 000	36 200 000
1975-76	78 000	46 700 000
1976-77	75 100	49 200 000

(a) Figures for these years are revised estimates only. For further details see the 1975-76 issue of this bulletin.

#### CLAIMS CLOSED INVOLVING TIME LOST OF ONE WEEK OR MORE

The following table is a summary of non-fatal accident and disease claims within the scope of the collection for the years shown. The number of claims and amount of compensation paid for non-fatal accidents for the years 1970-71 to 1974-75 have been revised by estimation. However, attempts to obtain improved data on fatal accidents have proved unsuccessful and no attempt has been made to estimate these figures or to revise data for fatal and non-fatal disease cases.

Year	Non-Fatal Claims Closed			
	Number		Compensation Paid	
	Accident Claims	Disease Claims	Accident Claims	Disease Claims
			Dollars	
1970-71 (b)	9 500	n.a.	3 400 000	n.a.
1971-72 (b)	12 000	n.a.	4 500 000	n.a.
1972-73 (b)	15 000	n.a.	6 600 000	n.a.
1973-74 (b)	17 000	n.a.	10 100 000	n.a.
1974-75 (b)	20 000	n.a.	15 500 000	n.a.
1975-76	18 435	649	20 685 300	769 500
1976-77	14 800	462	20 990 300	920 200

(b) See footnote (a) above.

#### RELATED PUBLICATIONS

All publications produced by the ABS are listed in the Catalogue of Publications (1101.0) which is available free of charge from any ABS office.

#### SYMBOLS USED

Throughout this publication, the following symbols have been used:

n.a. not available  
 - nil or less than half the final digit shown  
 — (where a line drawn across a column between two consecutive figures) break in continuity of series.

#### ROUNDING

Where figures have been rounded, discrepancies may occur between sums of the component items and totals.
